Moorhead, Assistant Surgeon W., solicits that full batta may be passed to him for the period he may be absent from his station on leave. The Government observe by the practice which obtains in Bengal that *Medical* officers of his class when directed to do duty under Superintending Surgeons or with detachment or corps without being permanently posted are entitled to full or reduced allowances with reference to locality, the same being continued to them on leave of absence, which rule, it is considered, would certainly seem to favour Mr. Moorhead's claim had it been intended that he should have returned to his post in the Straits. As it appears, however, that his return to duty in the Straits is not contemplated by the Commander-in-Chief, the Government are of opinion that Mr. Moorhead's claim to full regimental allowances is valid only up to such period as that intimation may have been communicated to him or that he may have been removed in Orders from his appointment at Malacca.
